

2 Year Report Outline

Overview:

AHCI is developing a report summarizing the experiences of the last two years since Mayview State Hospital closed. AHCI will use a variety of data sources, and the report will be shared at the June stakeholders' meeting, as well as with other counties and state officials.

Brief Outline:

1. Are people discharged as part of the closure doing well?
 - Satisfaction with services and quality of life (including update CSP information, CFST surveys, Pitt Evaluation preliminary findings)
 - Current housing and housing stability since closure
 - Hospitalizations, use of extended acute and RTF-A programs
 - Deaths
 - Charges/arrests/incarcerations
 - Engagement in behavioral health services, service utilization patterns
 - Consumer and family member testimonial
2. How has the regional service system evolved?
 - System redesign components
 - Increased regional cooperation
 - Increased focus on integrating services
 - Testimonials from a peer mentor and advocate
 - Overall county trends in inpatient utilization (e.g., lack of increases after closure)
 - Cost comparison
 - Transition of State Operated Services
3. Conclusion and future plans/directions
